Guidelines & Check List For The Device & Sim Activation

- Upon successful SIM card payment, a tax invoice and payment receipt will be sent to your registered email.
- Receipt of these documents confirms that the SIM card has been successfully activated.
- Maximum time to activate all the services are 60 mins, usually this takes hardly 15 mins to activate the SIM card.
- If payment is not successful in that case SIM card will not be activated

“Device Charging and Battery Monitoring Guidelines”

- Use only a 1.5A (10W) charger and the original charging cable provided with the device to avoid overheating or hardware damage. Full charging time is approximately 2 hours 30 minutes.
- While checking the remaining battery percentage on the mobile app, please refer to the Last Data Update Time’ to know the actual battery status.
- During **voice monitoring**, internet services are temporarily disabled, so live location updates will be paused.
